

Brandon Dillard is senior vice president and senior production officer for Alabama Power's generating fleet. He oversees electric power generation for Alabama Power's fleet of operating plants.

Previously, Dillard served as vice president of the Gas Generation Fleet for Southern Power, where he was responsible for providing leadership and strategic direction for seven plants across three states and 7,380 MWs of generation.

Prior to joining Southern Power, Dillard held various positions throughout the Southern Company Generation Fleet. He has more than 20 years of experience in power generation and served in plant manager positions at Plants Bowen, Scherer, Wansley and Hammond. He also served as Operations and Maintenance manager at Alabama Power's Plant Miller from 2006 to 2009.

Brandon Dillard

Senior Vice President
and Senior
Production Officer,
Alabama Power
Company

Dillard holds a Bachelor of Science in mechanical engineering from North Carolina State University and an MBA from Auburn University. He serves as an advisory board member for the HBCU Alumni Network and previously served on the board for the Georgia Partnership for Excellence in Education. Prior to relocating to Birmingham, he was an advisory board member for Georgia Power's VOICE employee resource group.
